

## SGS **TransitNet**: Calais Truckstop

**SGS**

## Customs Transit Made Easy

**TransitNet:** TransitNet is a universal, multimodal e-customs transit guarantee service where SGS acts as Holder of the Procedure (HoP) towards customs on behalf of its clients (transporters, brokers, freight forwarders, etc), enabling users to create transit declarations and submit them along with a financial guarantee in favour of customs to any of the customs systems where SGS is HoP.

**Calais Truckstop:** Calais Truckstop is an innovative concept which meets the requirements of road transport companies, shippers, truck drivers and insurance companies. Conveniently located just off the A16, Calais Truckstop offers 293 parking spaces for trucks in a fully secured parking area as well as a number of facilities for drivers.

**TransitNet in cooperation with Calais Truckstop:** SGS TransitNet and Calais Truckstop have joined forces to offer companies an ideal location to start and finish transit declarations which will or have travelled across the UK land bridge. The land bridge remains a vital access route to continental Europe from the island of Ireland and indeed from continental Europe to the island of Ireland. It offers a faster and cheaper route to mainland Europe. SGS are Authorised Consignor/Consignee with French Customs which means that at Calais Truckstop's authorized location in Calais, approved clients of TransitNet can start and finish their transit declarations under the simplified procedure removing the need to present the goods at a customs office of departure or destination. Any possible customs control will take place on site at Calais Truckstop. Calais Truckstop is conveniently located just off the A16 which is the perfect location to serve trucks travelling to Calais/Dunkirk from Paris or from the east.

Scan the QR code for  
GPS location details

1. When coming from Paris/Reims, at junction A26/A16 in Calais, take A16 direction Dunkerque.
2. When coming from Lille, at junction N225/A16 of Dunkerque, take A16 direction Calais.
3. Once on A16 take exit 48 towards Transmarck.
4. At the first roundabout once off the A16 motorway, turn left to Transmarck Ouest
5. Follow the signs/avenue right up to the end. Calais Truckstop will be the last building on the left hand side.

#### Important to note for TransitNet clients:

- The truck must be on location when the declaration is to be started or finished.
- Only when the truck is on location and when the driver has made himself known to ASA - CTS staff will start or finish the transit declaration.
- The truck must wait until the declaration has been fully processed and confirmed before leaving the location.
- If there is a control, ASA - CTS staff will inform the driver.
- French Customs will attend the location to carry out the control.
- Only after control, when the results are positive, can the driver leave the location.
- For SPS goods, please present a copy of your validated CHED when closing a transit declaration.
